

## **KELSEY PD-6-LP**

### **LOW PROFILE POWER DISTRIBUTION**

Kelsey's PD-6-LP low profile power distribution unit provides a neat, tidy solution for fast power distribution in stage, studio and touring environments.

The rugged hardwearing steel casing makes this unit ideal for tough environments where speed and ease-of-use are critical. All units are fitted with 6 x 13A outlets on the top plate with Powercon in and thru and a 20A breaker to provide valuable protection.

# KELSEY PD-6-LP

## LOW PROFILE POWER DISTRIBUTION

### FEATURES

- Power input: 20A Powercon with Powercon out allowing quick connection and daisy-chaining of units.
- Neon 'mains present' indicator.
- Tough low profile steel case withstands extended heavy-duty use.
- Thermal 'over-current' trip protects both link out and distributed outlets and allows fast restoration of power following an overload.
- Fully PAT tested before despatch.

### APPLICATIONS

- Ideal for touring, studio and stage use.
