

## MU-13 Single-Sided Microphone

### Features

- This innovative lightweight “enclosed ear” design is different from the traditional “hook” design. The flexible material ensures an ultra secure, comfortable fit with or without glasses.
- The microphone will not come off despite constant head movement during use.
- Three different sizes of frame are supplied (large / medium / small) to fit different performers.
- Detachable microphone capsule design allows easy setup and maintenance with the headworn frame and connecting cable.
- Features an ultra low-profile 3mm capsule diameter with high sensitivity and omni-directional characteristics.
- Supplied with sweat-proof capsule foams for aerobic use.
- Very thin yet rugged microphone boom can be bent and adjusted to any direction or position.
- The patented, swivelling ear hook design allows inward rotation for a secure directional position.

### Frequency Response

### Specifications

Capsule Diameter	3mm omni-directional
Frequency Response	40Hz-20kHz
Sensitivity	-52 +/-3dBV (0dB= 1V/Pa)
Max SPL	138dB
Connector	MIPRO mini 4-pin XLR
Colour	Beige
Cable Length	150cm
Weight	0.016kg
