

Genuine Galaxy Audio accessories and original replacement parts are built to the same exacting standards as the HOT SPOT Personal Monitor and the rest of the Galaxy line of quality products.

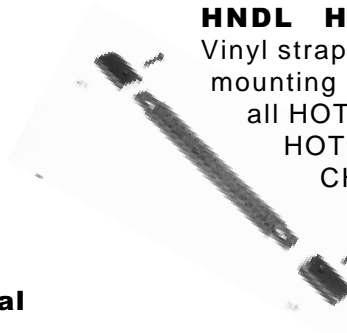

**S5C160-8
5-Inch Professional
Loudspeaker**

The legendary heart of the HOT SPOT Personal Monitor, this midrange transducer delivers maximum sound levels and unsurpassed durability under the most stringent operating conditions. Capable of handling 100 watts at 8 ohms, it features a proprietary nonferrous frame, 40-ounce magnet structure with vented pole piece, underhung voice coil, and linear spider. The one-inch voice coil includes a Kapton former. Ferro fluid cooling reduces distortion and power compression while increasing speaker life. The **S5C160-8** is optimized for use in infinite baffle/acoustic suspension type enclosures.

YBRF Yoke Bracket Kit (RETROFIT)
Black, Gray, White
Wall/Ceiling or stand mounting bracket for any HOT SPOT or CHAMELEON. Specify WALL-mount or STAND-mount

HNDL Handle Kit
